

CSC3320 System Level Programming

Lab Assignment 2 - Part 2 (Out-of-lab)

All the instruction is the older Lab instruction remain the same - the command line to download the RealEstate.csv file

Open your terminal and connect to snowball. Change your directory to your home directory (cd ~), and then create a new directory named as “Lab2_P2” (mkdir Lab2_P2). After that, go to directory Lab2_P2 (cd Lab2_P2) and download a test file by the following command (internet access required):

```
cp /home/bbello1/public/RealEstate.csv .
```

Be sure it succeeds using “ls” to see the file name “RealEstate.csv” listed.

Follow the rest of the instructions in the previous update Lab 2 (out of lab) note to complete this assignment.

Notes:

- **Due by 11:00 AM - 9/9/2021 (Thursday, Morning!)**
- **Write a report by answering the questions and upload the report (called L2_P2_FirstNameLastName.pdf or L2_P2_FirstNameLastName.doc) to Google Classroom and Lab2_2.txt as instructed in step (15) of task.**
